Reference :- GREENSKIP & FILL SERVICE.

To whom it may concern

We recently recruited the services of the above company and members of their workforce to landscape and excavate groundworks for concrete foundations on behalf of a local council authority.

I am pleased to express the professionalism and attitude shown in successfully fulfilling this project. As a result we have requested GREENSKIP to carry-out some excavation work at our own headquarters where we are under going a expansion program.

We therefore highly recommend them for any similar clearance/ landscape and excavation related work.

Yours Sincerely

Bob Harrison ( Contract Manager)
